PATRONAGE.....85

This book symbolizes the beginning of the end of a wonderful school life. Through our years at C.H.S. we have lived through many experiences we shall never forget. On these pages we will relive some of the treasured events in our years at C.H.S.

Through these years, our teachers have left many impressions on us. In grade school we learned our ABC's and manners.

Our sixth grade teacher, Mr. Richard Kessler, whom we all were very fond of, helped prepare us for our high school years. We looked up to him and thought he was extra special because he was our first man teacher. We humbly and sincerely dedicate these pages to him, a great teacher and dear friend.

Our school was
always growing;
more teachers,
more students,
new courses.

PRACTICE

PLAY

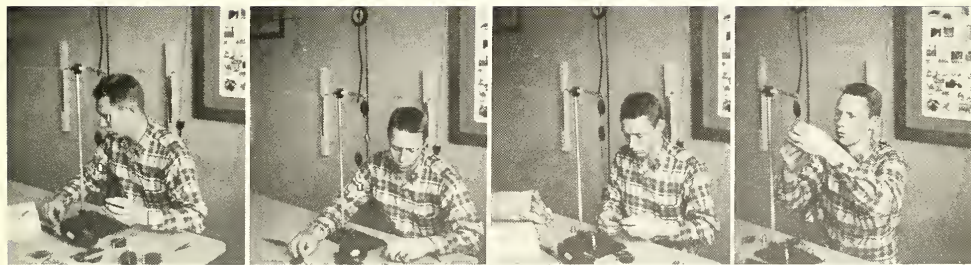

SURPRISES

WORK

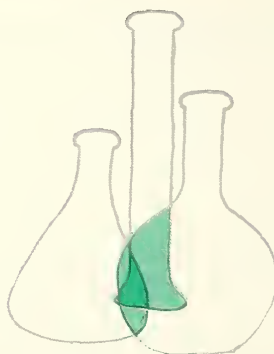

ACADEMIC

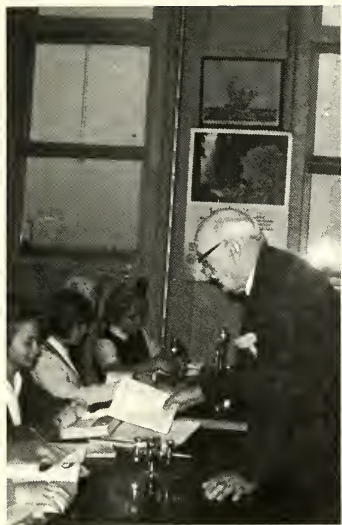

SCIENCE

Mr. Schermerhorn and Mr. Loveless kept the seventh and eighth graders busy learning about the world around us.

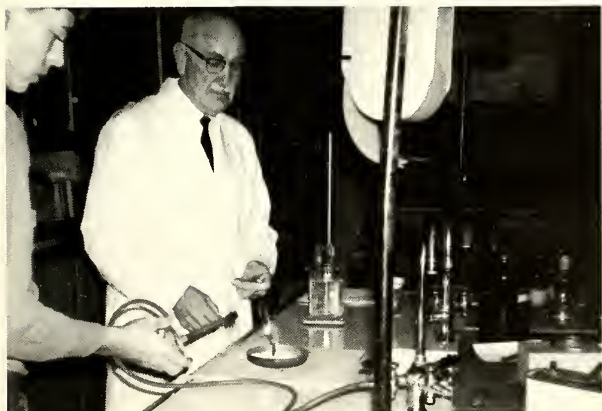

The freshmen under Mr. Schermerhorn explored the world of the microscope and the plant and animal kingdoms.

Chemistry and physics students explored the exciting world of protons, neutrons, and electrons. Tough? Yes, but Mr. Troyer was always there to lend a helping hand.

In science we learn for ourselves. Right; a physics experiment takes concentration.

The bunsen burner plays a very important part in chemistry experimentation. Left; one of the first experiments in chemistry--burning a magnesium ribbon.

BUSINESS

The students had the opportunity to take Typing I & II, Shorthand II, Business Mathematics, and Bookkeeping. We'll always remember the cold typing room and the warm kind words of our instructor, Mr. Palmer.

What'll they do next?

Now is the time for all . . .

Is it a cash debit or credit?

Now where's the "t"?

Mr. Loveless's Algebra I class.

MATHEMATICS

We struggled through our math classes wondering why $a=b$. It took a lot of patience to put up with us, and our instructor Mrs. McClish had it!

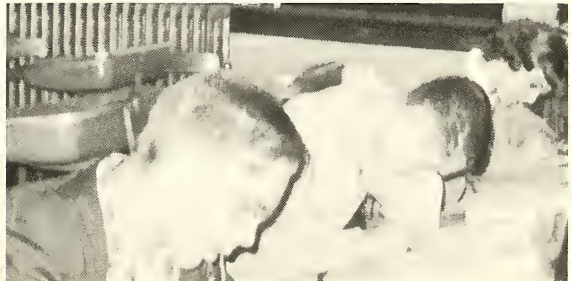

All right let's try it again.

Think hard, Mike.

Seniors in Advanced Math.

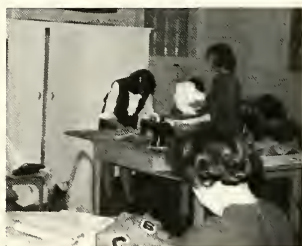

HOME EC

In Home Ec we study everything from A to Z.

The foundation for Homemaking is the family. We studied family relations--assisting and serving as a part of the family and getting along with others. We contributed to family living by studying home management, child development, housing, home furnishings, home nursing, food and nutrition, and textiles and clothing. All these phases are important if we are going to provide "homes where truth, love, and security and faith will be realities, not dreams."

Anyone for sewing?

Now what do I do with this bound-buttonhole?

ENGLISH

Tell the story well, Becky.

Connie don't concentrate so hard.

The Sophomores are busily reading novels.

We studied
descriptive
grammar this
year. We found
this type of
English different
and challenging.

Mr. Lovelady.

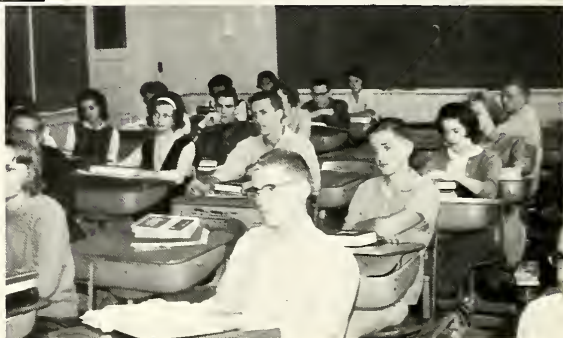

Mike and Dan produce
sentences the fun way.

Mr. Fetter grading another health test.

The Juniors listening to an interesting discussion by Mr. Fetter.

Studying hard to pass one of Mr. King's tests.

Jerry and Mr. King arguing another Election issue.

Mr. Fetter taught us to accept ourselves the way we are and to get along with others.

In Economics we learned how the money system of our government is run and how to budget money wisely, and many other important things to be used later in life.

The seniors were in charge of the full-scale election in our school last fall; this in turn, helped us to understand Civics better.

Hurry, Linda.

Who's ahead?

This is Study Hall.

1 & 2 & 3 . . .

Blow, Dan, blow.

And then, the three little pigs . . .

Oh well, that's close enough.

Decisions! Decisions!

Don't just stand there, hands up.

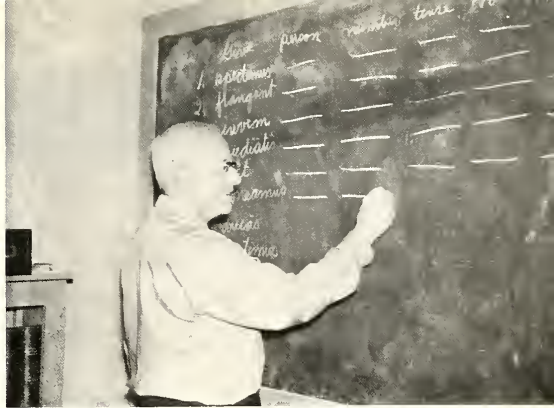

Better luck next time.

"What was that again?" the Latin I students asked.

Two of our elective subjects were Latin and Driver Training. Mr. Loveless got a kick out of trying to teach us *amo*, *amas*, *amat*. Mr. Krieger often pushed his panic button when he saw the telephone poles flying by. We grew up with Mr. Loveless. Mr. Krieger was one of our newer teachers but I am sure we will remember both of them for a long time.

Mr. Loveless is up to his old tricks . . . a surprise test kids!

"See Sherm . . . There's the battery!"

Getting up the courage for another ride.

ASSOCIATIONS

SPARTAN SPIRIT STAFF

ROW 1: Paula McLallin--Typist; Joy Moore--Co-Editor; Dave Barhydt--Assit. Co-Ed.; Ellen Lightfoot--Editor; Phyllis Click--Advertising. NOON PROGRAM

Something new! The noon program brought a lot of excitement and pleasure to all of the C.H.S. students. During the action packed half hour each noon, the classes competed in various sports. We started off with softball in the fall. When the weather got colder we switched to indoor sports. The spectators got almost as much exercise as the participants! The goals: fun, exercise, sportmanship, and a trophy for the winner.

SENIORS

In 1952 several scared little first graders entered the Cromwell and Kimmell schools for the first time. As we arrived in junior high we proudly called ourselves the "Class of '65." In the eighth grade our two classes were united at Cromwell. Our Freshman class was the largest in the high school with a total of forty students. During our high school years we worked hard to earn money for the Prom. We put a lot of hard work into the production of the school paper "Spartan Special" during our Junior year. In our last year at C.H.S. we made a special effort to fill our year-book with memories of our days here at Cromwell.

Our class has learned to work together as a closely knit unit. We have always been able to have fun while we worked. We have shared joys and dissappointments. We will always remember our days here at Cromwell High School.

We have come to the end of our last year at C.H.S. with mixed emotions--pride in our achievements, regret at leaving friends and teachers, but with ambitions for the future. We owe a great debt to our school and will always remember the great lessons we have learned within her walls.

Wendell
B. Stone

John,
To a real
sweet underthe sun.
Goodluck at CHS.

Oliver Root

John
 To a real nice
 boy and good
 luck in the
 future.
 a friend
 a kid

Deke Bamber

John: To a real nice guy. Keep
 future years. Good luck. Keep
 going in the 8th grade.
 John: To a real nice guy. Keep
 future years. Good luck. Keep
 going in the 8th grade.

John,
 I don't know
 what to say so
 I won't say very
 much, except
 Good-Luck in the
 future years.
 Deke
